BORA & WERSI

2026 GLOBAL EXPORT PROFILE & ADVANTAGES

FACTORY SNAPSHOT:
Established in 2003, Jiangxi Baorui Electronic Technology Co., Ltd. operates massive 70,000+ sqm facilities with 200+ skilled employees. We are the ONLY source factory in China with independent, end-to-end production capabilities for portable electronic instruments - from raw materials directly to finished products, ensuring absolute quality control and the most competitive B2B cost structures globally.

6 CORE EXPORT ADVANTAGES FOR DISTRIBUTORS

1. Direct Factory Cost Advantage
By managing the entire production chain internally from raw materials to final assembly, we cut out all middlemen, delivering unparalleled factory-direct wholesale pricing to maximize your retail margins.

2. High Stock Depth & Zero MOQ Friction
We maintain a deep, year-round inventory of our best-selling models. This enables us to support tiny initial test orders (as low as 2-6pcs) up to bulk container shipments with short lead times.

3. Top-Tier Factory Scale & Verification
With our industry-leading workshop size, we are an Alibaba-Verified Chinese Supplier. We warmly welcome third-party inspections and on-site factory visits to give you absolute transaction confidence.

4. Continuous R&D & Product Evolution
Our expert R&D team continuously launches innovative designs (40+ patents). Featuring ultra-durable keys that never discolor, you run zero risk of selling stale or discontinued product lines.

5. Direct Door-to-Door (DDP) Logistics
We offer highly cost-effective, small-batch sea and railway freight channels with direct door-to-door delivery. We handle the complex customs and clearance, making importing completely seamless for you.

6. Capturing an Incremental 'Blue Ocean' Market
Our folding pianos do not compete with acoustic uprights. They capture a high-growth incremental market, serving as an affordable 'first practice piano' or a portable 'second travel instrument'.

Since 2003

70000+

FACTORY SIZE:

Our factory covers an area of 70000+ square meters, providing ample space for our production and operations.

20+

PRODUCTION LINES:

We have over 20 production lines,which allow us to efficiently and effectively produce high-quality products for our customers.

6+

SMT LINES:

With 6 state-of-the-art SMT lines, we are able to produce complex electronic products with precision and accuracy.

20+

R&D TEAM:

20+ experienced and skilled R&D members work tirelessly to create innovative products that meet the ever-changing needs of customers.

200+

EMPLOYEE COUNT:

Our factory is home to over 200 employees, who are dedicated to providing exceptional service and quality products to our customers.

80+

INTERNATIONAL COVERAGE:

With over 80 countries selling Bora pianos, we are committed to expanding our reach and providing top-quality products to our customers.

01 FOLDING PIANO KEYBOARD

BX-15S

Simple folding design
DREAM Sound Synthesis

- 36 types of tones, 8 built-in demos
- Exquisite imitation wood texture keyboard
- 2*25W Double hi-fi stereo speakers
- USB MIDI&Bluetooth MIDI
- Rechargeable battery / power adapter charging

BX-20

Foldable Piano
Your perfect travel companion!

Creative Foldable Design & Lightweight (4KG) -
Audio Bluetooth & APP Bluetooth -
88 Touch Sensitive Keys & Multiple Functions -
DC 5V/2A, built-in lithium battery charging -

X88T

Portable folding design with DREAM Sound Synthesis

-128 tones, 128 rhythm patterns, 30 built-in demos
- 2*25W Double hi-fi stereo speakers
-USB MIDI&Bluetooth MIDI
-DC 15V/3A , 2000mAH li-ion battery charging

X88TW

Portable folding design with DREAM Sound Synthesis

-128 tones, 128 rhythm patterns, 30 built-in demos
- 2*25W Double hi-fi stereo speakers
-USB MIDI&Bluetooth MIDI

06 ELECTRONIC WIND INSTRUMENT

EWI L1

- Tone: 88 tones
- Display: LCD Screen
- Material: ABS/Aluminium alloy
- Fingerings: Saxophone,Flute
- Interface: USB/MIDI, 3.5 Headphone, 6.5 Audio input
- Battery: 4200mAh Li-ion battery
- Main Function:Tone, Pitch, Vibrato, Pitch bend, Glissando,MIDI,Bluetooth Function,etc

EWI S55

- Tone: 13 tones
- Display: LED nixie tube
- Material: ABS
- Fingerings: Saxophone,Flute
- Interface: USB/MIDI, Headphone interface
- Battery: 800mAh Li-ion battery
- Main Function:Octave, Tone, Dual,
- Pitch, MIDI,Bluetooth Function,etc

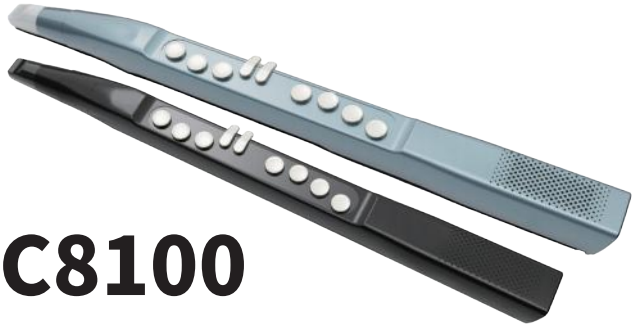

EWI S56

- Tone: 13/Dual -tone function
- Double Timbre function
- LED display
- Fingerings: Saxophone/flute
- 15 Levels of blowing sensitivity adjustable
- Interface: USB/MIDI, Headphone interface
- Battery: 800mAh Li-ion battery
- Speakers: 3W
- Wireless/Wired MIDI Function

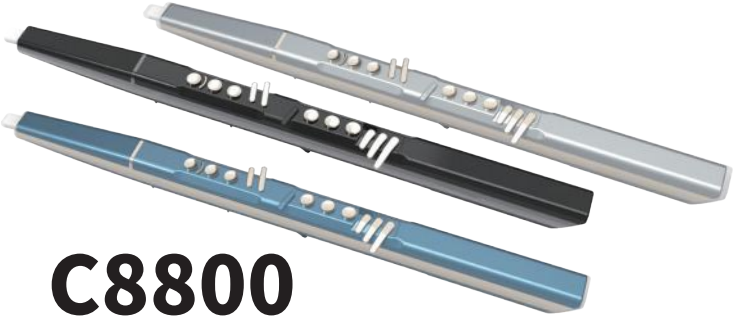

EWI S58

- Compact and stylish design
- With LCD display
- Detachable Silicone mouthpiece
- Built-in 100 tones/transpose buttons/bend/slide
- Fingerings: Saxophone/flute
- 32 Levels of blowing sensitivity adjustable
- Transpose function: -12 to +12
- Supports external speakers or headphones
- 800mAh/3.7V rechargeable lithium-ion battery
- Speakers: 3W
- Wireless/Wired MIDI Function
- Functions:Volume, Fingering, Vibrato Amplitude, Vibrato Speed, Pitchbend Speed, Glissando Speed, Frequency Modulation, Filtering, Factory Reset, Bluetooth, Sensitivity, Breath Intensity, Chorus, Monitor

C8100

-Compact EWI with Built-in 100 tones;
-Two fingerstyle playing;
-3W speaker output;
-DC5V2A/Rechargable battery

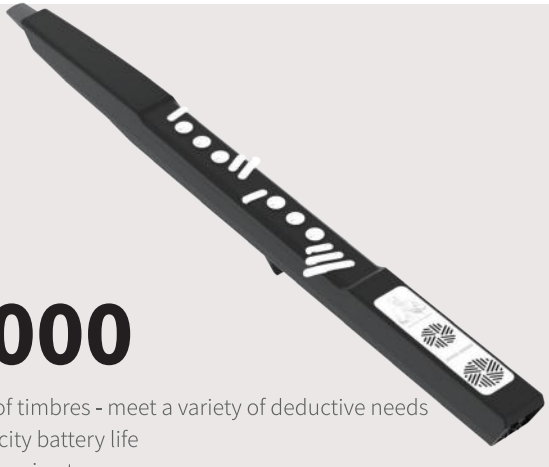

C8800

-Professional-grade electric wind instrument;
-Hundreds of timbres - meet a variety of deductive needs
-Large capacity battery life
-Multiple fingering types
-Bluetooth supported
-Rich in features - pitch bend, glissando, octave adjustment, etc

C8900

-LCD display;
-High-quality 3W speaker;
-Hundreds of timbres - meet a variety of deductive needs
-Large capacity battery life
-Multiple fingering types
-Bluetooth supported
-Rich in features - pitch bend, glissando, octave adjustment, etc

S9000

-Hundreds of timbres - meet a variety of deductive needs
-Large capacity battery life
-Multiple fingering types
-Bluetooth supported
-Rich in features - pitch bend, glissando, octave adjustment, etc

BWS8

-Strong anti-interference low latency
-Small size easy to carry
-Transmission distance up to 30 meters

BWS9
WIRELESS SYSTEM

- Material: ABS
- Channel: 10 Channels
- System Frequency: 20~20KHz
- Signal-to-noise ratio: >85dB
- Distortion <0.05%
- Transmission Distance: 30~50m
- Latency：<2ms
- Full Working Hours: 5~6 hours(circumstantial)

Suitable for 6.35mm audio interface devices
Strong anti-interference capability
Powerful obstacle penetration
Stable transmission without lagging

NEW PRODUCT
